PROFESSIONAL SUMMARY

Customer Success professional with 5+ years in customer-facing roles spanning hospitality, customer support, and account management, now building toward CSM and Technical Account Management roles backed by hands-on full stack development skills. Experienced in onboarding design, churn analysis, CRM workflow building (HubSpot, Zoho), and cross-functional coordination. Currently completing a Full Stack Development internship at CodeAlpha, shipping production-style React/Node.js/MongoDB applications independently — bringing a builder's understanding of product to every customer relationship.

CORE SKILLS

- Customer Success & Account Management | Onboarding Design | Churn Analysis | Stakeholder Management
- HubSpot CRM | Zoho CRM | RICE Prioritization | Health Score Tracking | 360-Degree Feedback Reviews
- Full Stack Development: React, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs
- Cloud & Infrastructure: AWS (EC2, VPC, IAM, S3), Terraform, Docker, Kubernetes basics
- Project & Cross-functional Coordination | Workflow Automation (Zapier) | Documentation & Tracking

CUSTOMER SUCCESS EXPERIENCE

Program Management & Client Onboarding — Vendoura Hub

- Owned client onboarding, cohort tracking, and sales outreach scripting for a growing program-based business
- Built structured onboarding workflows that improved visibility into client progress and reduced early drop-off

Virtual Assistant & Operations Coordinator Trainee — Digital Witch / Digital Milestone Academy

- Coordinated workflow processes using Zapier automations and maintained organised HubSpot CRM records, ensuring full visibility across tasks and client activity
- Acted as a point of contact for resolving client queries promptly, maintaining clear and consistent communication across email and digital channels
- Identified process gaps and collaborated cross-functionally to implement fixes, improving team efficiency and overall programme execution

CSM PROJECTS & CASE STUDIES

Harvestfield Agro-Processing — Retention Strategy Case Study

- Applied RICE prioritization to a B2B agro-processing client's retention strategy, ranking initiatives by reach, impact, confidence and effort to guide CSM resourcing decisions

SaaS Churn Reduction — HubSpot Retention Pipeline (Case Study)

- Designed a full HubSpot retention pipeline for a fictional SaaS business — health score properties, automated workflows, and churn dashboards — demonstrating end-to-end CSM tooling fluency

Business Operations & Onboarding Audit — Pepagora (Excelerate Internship)

- Conducted a full onboarding journey audit for a B2B platform, documenting friction points and producing a structured recommendations report for leadership
- Managed multiple workstreams simultaneously — user persona analysis, competitive benchmarking, UX recommendations — delivering all on time with a 95% overall score

FULL STACK DEVELOPMENT PROJECTS

CodeAlpha Full Stack Development Internship *(June 2026)*

- ShopAlpha — Full-stack e-commerce store with product catalog, cart, checkout, order processing, and JWT-based authentication. (React, Express.js, MongoDB)
- TaskFlow — Kanban-style project management tool with task assignment, comments, and real-time status updates across project boards. (React, Express.js, MongoDB)
- VibeNet — Social media platform with posts, likes, comments, and a follow system. (React, Express.js, MongoDB)
- Independently managed all 3 project deliverables end-to-end — backend APIs, database schema design, frontend builds, authentication, and deployment-ready GitHub repos

POD-14 Cloud Computing Programme — Digital-Witch (Infrastructure Lead / Team Coordinator)

- Deployed a three-tier banking application on AWS using Terraform, with CI/CD pipeline setup via GitHub Actions
- Coordinated a cross-functional team capstone project, managing task assignments, tracking deliverables, and resolving infrastructure blockers (EKS nodes, NAT gateway, Helm provider issues) toward successful deployment
